

# Enhancing Primary Art & Design with Technology

*Learn how to teach enriching and inspiring lessons that combine both Art and Computing. Discover how the subjects complement each other and support the development of key skills, creativity and imagination in the children you teach.*

**Date: 1.30-4.00, Thursday, 12th March 2020**

**Venue: Milverton School, Greatheed Rd,  
Leamington Spa, CV32 6ES**

**Price: £95 per delegate**

**Course Leaders: Emily Gopaul and Isabella Lieghio**

Emily is an artist, art teacher and primary art consultant at her company *The Primary Art Class*. She has nearly two decades of experience teaching, leading and consulting on art education. Her book *Teaching Primary Art and Design* is available to buy now.

**Gain tips on how technology can be easily used, by non specialists, to complement existing Art & Design lessons**

**Discover how you can use the work of a range of artists to inspire lessons that combine technology and Art**

**Learn about fun and creative apps and programmes relevant to Art and Design**

**Explore tried and tested classroom activities, ready for you to take back to school**

Isabella is an education consultant & founder of *Icon Learning*. She is a Computing at School Master teacher, Apple Distinguished Editor and Ambassadors for CEOP and Barefoot Computing. She has nearly two decades of experience teaching, leading and consulting on Computing education.
